

## EXCLUSIVE SALMON FISHING IN NAMSEN COMBINED WITH PRACTICAL SHOOTING TRAINING WITH SHOTGUN, PISTOL/REVOLVER, AND RIFLE AT SOLUM SHOOTING RANGE

Salmon fishing in the famous river Namsen is always exiting and has attracted sport fishers from all over the world for nearly 200 years. Our unique and healthy salmon population is well known for both its size and volume. In the river Namsen, exiting experiences and encounters with salmon awaits you. We practice "catch and release", and the salmon is therefore unhooked and returned to the water shortly after being captured.

In addition to salmon fishing, we offer practical shooting training with various weapons at Solum Shooting Range in Harran. At the shooting range only 10 minutes from Namsentunet, we practice mostly with shotguns, pistols, and rifles. Here you will meet competent instructors who will instruct you in how to handle the different weapons. We have our own skeet shooting field and shooting ranges for rifles and pistols. During the stay, all our guests must pass the Norwegian hunting proficiency test for big game hunters. Our instructors are skilled and well educated leaders from either the police force or the Norwegian military officer candidate school.

The package includes the following: All guest transport, full board accommodation in single rooms, practical shooting training with weapons and Norwegian hunting proficiency for big game hunters certificate, shooting instructors with three different weapons, borrowing of weapons and ammunition, salmon fishing guides, rotation between shooting training and salmon fishing, and three events in Grong in the evenings.

Number of guests per group: 4-8 persons.

Time and length of stay: Five days in the period ranging from June 1st to September 15th.
